

Here's What Others are Saying

"Thank you so much for Neuropasil. I had so much pain in my legs and feet for so long... I had to do something—it felt like electric shocks in my feet and legs! Since I've been using your Neuropasil I feel much better. What a great product! Thank you!" *J. Moore, Brooklyn, NY*

"I cannot begin to tell you how very much I love Neuropasil. My legs and feet had tingling, burning and severe pain, which would keep me up at night. Since using your product, the discomfort has subsided." *J. Rivera, Baltimore, MD*

"I began taking Neuropasil ... and was surprised at how fast it started to work. My numbness and burning have improved, and I can walk and stand longer. Thank you so much!" *M. Smith, Tampa, FL*

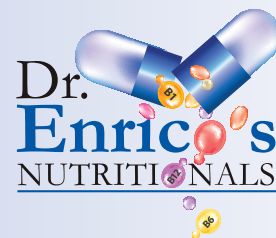

"... My legs and feet were constantly burning and I had loss of feeling in both my feet. Within just two weeks of starting Neuropasil my symptoms decreased dramatically..." *H. Bloom, AZ*

"I am so glad that I took Neuropasil. I am able to walk much better with less pain and numbness in my legs and feet." *B. Olsen, RI*

NEUROPASIL:
Safe and Effective
Nerve Pain Relief

Nerve Pain Isn't Always What it Seems

For many people suffering from nerve pain, diagnosis comes too late. Millions of people in the U.S. suffer from damaged or impaired nerves, especially in the hands and feet. Symptoms can range from mild tingling and numbness to shooting pain, intense burning sensations—even complete numbness—which leads to lack of mobility and increased risk of infection.

Have You Experienced These Sensations?

- Numbness
- Tingling
- Pinching
- Burning
- Stabbing or sticking pain
- Electric shock
- Glove or stocking sensation (when hands or feet are bare)
- Weakness
- Heaviness
- Cramps

Symptoms can often be more pronounced at night—making sleep difficult.

Introducing Neuropasil: a Nerve Health Breakthrough

Developed by podiatrist and foot surgeon, Dr. Anthony Enrico, Jr., Neuropasil contains B-vitamins, Zinc, and a proprietary blend of amino acids and other ingredients that support healthy nerves. Neuropasil has absolutely **no negative side effects**—and does not interact with medications you may be taking. Its ingredients help your body decrease inflammation and increase healthy circulation naturally, so you can maintain optimum mobility and experience less pain*.

Many people get misdiagnosed or ignore early symptoms, and decades of practice inspired Dr. Enrico to create Neuropasil, a nutritional supplement that supports healthy nerves. Neuropasil can help keep your nerves in good condition, and may prevent symptoms from developing or becoming worse*.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Nourished Nerves are Healthier Nerves

Nerve pain and numbness can make it much harder to move about and participate in activities you love. Gardening, playing with the kids, and just getting around can become more and more painful, especially if the nerves are affected in your feet and legs.

Don't wait until loss of mobility puts you on the sidelines! Talk to your doctor about your daily routine of nutrition, exercise and rest, and add Neuropasil to your daily regimen. Neuropasil provides nutritional support and protection for your nerves. Our simple, ONE-tablet, twice-a-day formula makes it easy to fit into your routine.
